Library Of Congress ~ The National Screening Room

The *National Screening Room* showcases the riches of the Library's vast moving image collection, designed to make otherwise unavailable movies, both copyrighted and in the public domain, freely accessible to the viewers worldwide.

The majority of movies in the National Screening Room are freely available as both 5 mb MP4 and ProRes 422 MOV downloads.

The National Screening Room is a project of the Library of Congress National Audio-Visual Conservation Center. The goal of this digital collection is to present to the widest audience possible movies from the Library's extensive holdings, offering a broad range of historical and cultural documents as a contribution to education and lifelong learning.

These selections are presented as part of the record of the past. They are historical documents which reflect the attitudes, perspectives, and beliefs of different times. The Library of Congress does not endorse the views expressed in these movies, which may contain content offensive to users.
