

Dutch Caribbean Digital Platform

The Dutch Caribbean Digital Platform is online since 2 November 2015

We - the University of Curaçao Library - are in the process of optimizing the system and building our collections. Much of the content still has 'restricted access'. For these items, we are in the process of clearing copyright issues. If you are the copyright owner of one of these items, please contact us through library@uoc.cw or call Margo Groenewoud, (5999) 7442236.

Upcoming events

In November and December 2015, we will organise meetings both on Curaçao and in The Netherlands to demonstrate the platform to our stakeholders. We need your help to open up as much content as possible, in the interest of our community and for optimal use in education and research.

If you want to know more or want to be invited to one of these meetings, please let us now through library@uoc.cw.
