

Stanford Encyclopedia Of Philosophy

Welcome to the Stanford Encyclopedia of Philosophy (SEP), which as of March 2018, has nearly 1600 entries online. From its inception, the SEP was designed so that each entry is maintained and kept up-to-date by an expert or group of experts in the field. All entries and substantive updates are refereed by the members of a distinguished [Editorial Board](#) before they are made public.

Consequently, our dynamic reference work maintains academic standards while evolving and adapting in response to new research. You can cite fixed editions that are created on a quarterly basis and stored in our [Archives](#) (every entry contains a link to its complete archival history, identifying the fixed edition the reader should cite). The [Table of Contents](#) lists entries that are published or assigned. The [Projected Table of Contents](#) also lists entries which are currently unassigned but nevertheless projected.
