—

Rozenberg Quarterly aims to be a platform for academics, scientists, journalists, authors and artists, in order to offer background information and scholarly reflections that contribute to mutual understanding and dialogue in a seemingly divided world. By offering this platform, the Quarterly wants to be part of the public debate because we believe mutual understanding and the acceptance of diversity are vital conditions for universal progress.

Part of the academic contributions to the Quarterly are peer reviewed. Peer-reviewed articles have been evaluated and critiqued by researchers and experts in the same field before the article is published.

History:

Originally set up to introduce readers to the publications of Rozenberg Publishers and several academic institutions, the scope has been broadened to include many different topics of science, academics and culture in order to contribute to the worldwide public debate as well as to entertain the reader.
