

ASCL Country Portal ~ Information About African Countries ~ News, Statistics, Maps, Images And More

The ASC country portal provides a list of free internet resources and other information on Africa. It was initially set up for the general public but those with greater in-depth knowledge of Africa will also find some of the resources valuable. The ASC country portal aims to present information on each African country at a glance. The internet resources have been selected by staff at the [African Studies Centre](#) library.

Corrections and suggestions are very welcome. Please contact: asc@ascleiden.nl
