

Human Right Watch - Shattered Dreams ~ Impact Of Spain's Housing Crisis On Vulnerable Groups

hrw.org. May 2014. This 81-page report documents the hardships faced by families who lose their homes after defaulting on mortgage payments amid Spain's economic recession and massive unemployment. The report is based on in-depth interviews with 44 women and men who have experienced or were facing eviction, civil society organizations, and government officials. Immigrants, women who head households or are victims of economic abuse from a former partner, and children are among the affected groups, Human Rights Watch found.
