

SA Affordable Housing

SA Affordable Housing is a unique publication that is dedicated entirely to the subject of affordable housing in South Africa today. We address topics and issues relating directly to rural and urban infrastructure planning and development and the delivery of affordable housing. SA Affordable Housing does not support any view that lends itself to the construction of new shacks and slums.

This publication is grounded in the absolute conviction that every South African must have access to a home and that these homes, and the infrastructure that supports them, must be of a standard that is reflective of the needs and dignity of our citizens.
